

E2 Sanitizing Hand Soaps

Ideal for Food Processing, Preparation and Handling

All Health Guard E2 products are NSF E2 registered, which means that each of these products can be used as a combination hand washing and sanitizing compound in food processing and preparation areas. E2 products clean hands and kill germs in one step. Hands must be thoroughly rinsed with potable water after the use of the E2 product and before handling food. The NSF logo and registration is on each product label. Efficacy data available upon request.

- E2 Registered with NSF International, an independent, accredited food safety organization
- Combination Hand Wash and Sanitizer that removes fat, oils, and other tough food soils
- Exceeds the NSF 50 ppm chlorine equivalency standard for sanitizers
- Offered in liquid and foam options
- FDA approved active ingredient, Benzalkonium Chloride, is effective against common food borne organisms that can cause illness
- Contains moisturizers with no added dye or fragrance
- Must be rinsed with potable water after use
