

Hand Care Solutions that
Keep Workers Productive

KUTOL
Hand Care Specialists

OSHA has found that effective controls protect workers from workplace hazards;
help avoid injuries, illnesses, and incidents; minimize or eliminate safety and health risks;
and help employers provide workers with safe and healthful working conditions.

Kutol's Specialized Hand Care Products Reduce Risk Factors and Downtime

Prevent Occupational Dermatitis with Kutol® Pro

PREPARE HANDS

Use **BEFORE WORK** Hand Cream at the beginning of the day to help repel and make it easier to wash away industrial soils from the skin.

Image courtesy of Laborers' Health & Safety Fund of North America

CLEAN HANDS

Use a **Heavy Duty** Hand Cleaner to scrub away tough industrial soils throughout the workday – cleans hands in just one application.

RESTORE HANDS

Use **AFTER WORK** Hand Cream at the end of the day to help soothe, moisturize and restore dry hands.

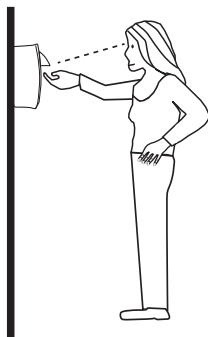

Occupational Dermatitis is inflammation of the skin caused by contact with damaging substances such as solvents, chemicals, irritants or allergens. Acute soreness, redness, itching and cracked skin can occur. More than \$1B annually in lost wages is due to skin disease as many employees cannot continue working with these symptoms. In heavy duty work environments, proper skin care products should be used.

Minimize Slip and Fall Incidents with Top Dispensing Technology

Eliminate leaks and drips with Designer Series no touch and manual dispensers. Product is dispensed from the top, making it easier to see the soap or sanitizer being dispensed and preventing unneeded pushes. The valve location at the top of the dispenser rather than the bottom reduces dripping significantly. And, Health Guard® foam soaps dispense with a thick foam that covers hands easily and rinses quickly, saving water. All this adds up to less product dripping, less water released and less chance of spills that become a slip and fall hazard.

Learn more about hand care in industrial settings by visiting kutol.com/markets or scanning this code.

Slow the Spread of Germs and Reduce Absenteeism

Hand cleaning is the #1 way to prevent the spread of illness, and heavy grime on hands can harbor more germs than typical. Kutol Pro heavy duty hand scrubs and Health Guard general purpose hand soaps and sanitizers lather easily, clean quickly and rinse completely. Less time washing, more time working.

Kill Germs with Hand Sanitizers

Health Guard hand sanitizers kill germs when soap and water is not available. Easy, fast and convenient, our 62% and 70% alcohol formulas meet CDC recommendations for hand antisepsis. In hazard areas where flammability must be avoided, Health Guard No Alcohol Hand Sanitizer kills 99.99% of common germs without water and is on-flammable.

Easily set up hand sanitizing stations with floor stands and dispensers of sanitizer. Use non-alcohol sanitizer in hazard areas.

Portable bottles can be placed on desk and counter tops; small bottles are convenient for on-the-go.

ALWAYS HAVE WHAT YOU NEED

Kutol Products Company has manufactured and distributed commercial skin care products for more than 100 years. All soaps and sanitizers are made in the USA.

We ensure a steady supply of hand soaps, sanitizers and durable dispensers for your restrooms, locker rooms and sink areas so your employees, visitors and patrons are never without effective hand cleaners.

Safety Data Sheets (SDS) are available for all products at kutol.com/tools-resources.

KEEPING YOU PRODUCTIVE AND ECO-RESPONSIBLE

Kutol employs eco-responsible practices in the products we manufacture, the way we design and produce them and the manner in which we operate our facility. Many of our soap and sanitizer formulas are Green Seal® Certified, USDA BioPreferred® or Ecologo registered — ensuring they are earth-friendly and cause the least amount of harm to our water and ecosystems. And, all of our Kutol Pro industrial hand cleaners have low VOCs, meeting pollution regulations.
