

# HAND HYGIENE GUIDE FOR EDUCATION

Keeping students and educators healthy

## Clean Hands for Healthy Schools

Good hand hygiene is most important in schools and educational facilities where students and staff spend so much of their days. Thorough handwashing with soap and water or effectively using hand sanitizer can help prevent the spread of illness that leads to absenteeism. The path to smarter hand hygiene starts here.

Specialty dispenser color encourages handwashing for the youngest students!

## WALL MOUNT DISPENSERS

In educational facilities, soap and sanitizer dispensers must be dependable and durable, as well as:

- Accessible and easy to use
- Secure to deter vandalism
- Disperse an accurate amount of product

### MANUAL DISPENSERS

- Top dispensing allows easy viewing
- Upper valve placement means leaks
- Outputs .75 mL of product, also available in .4 mL - 2,600 uses per bag!
- Locking option (included)
- Made from durable plastic with no metal parts

Available colors

### NO TOUCH DISPENSERS

- Powerful motor for quick dispensing
- Motion sensor prevents random dispensing
- Sleep mode after 30 minutes of non-use extends battery life — includes four C-size batteries

Available colors

## Spread school spirit - not germs!

Large area for color logo

Your logo or mascot is printed in full color directly on the front of the dispenser. It looks great, won't scratch off and boosts school pride!

Available colors

# HAND SOAPS AND SANITIZERS

There are a variety of soap and sanitizer needs that exist in educational facilities.

## Make sure to consider:

- Dye and fragrance free hand soaps are ideal for allergy-sensitive settings.
- Instant alcohol hand sanitizers kill up to 99.99% of most common germs, furthering good hygiene between handwashings.
- Alcohol free hand sanitizer is non-flammable and gentle on hands.
- Green Seal® certified soaps and sanitizers are safe for the environment, and users.
