

No Touch Counter Mount Comparison Chart

Significant labor savings can be achieved with counter mount dispensers that refill from ABOVE the counter instead of below. With above the counter systems, crawling on the floor and removing ADA panels is eliminated, saving time and labor. Kutol's TOPFILL No Touch Counter Mount dispensers offer even more time savings: staff "docks" the refill bag, soap flows automatically then stops when full – freeing up their time to complete other tasks.

	Dispenser Name	Company	Type of System	Estimated Time to Refill*	Dispenser Features	Power	Finish/ Materials	Refills	Doses per Refill
