**HAND HYGIENE GUIDE FOR EDUCATION**

**Clean Hands for Healthy Schools**

Hand hygiene is most important in schools and educational facilities where students and staff spend a significant amount of time. Thorough handwashing with soap and water is the most effective way to prevent the spread of germs that lead to disease. The goal is to ensure hand hygiene starts here.

**WALL MOUNTED DISPENSERS**

In educational facilities, soap and water dispensers must be dispensable and durable as well as accessible and easy to use. Choose a dispenser that is designed for use in schools.

**NO TOUCH DISPENSERS**

Spread school spirit, not germs! No touch dispensers are designed to make hand-washing easy and convenient. They are made with a heavy-duty, durable, long-lasting plastic. The dispenser is made with a heavy-duty, durable, long-lasting plastic.
