

HAND HYGIENE GUIDE FOR EDUCATION

Keeping students and educators healthy

Clean Hands for Healthy Schools

Good hand hygiene is most important in schools and educational facilities where students and staff spend so much of their days. Thorough handwashing with soap and water or effectively using hand sanitizer can help prevent the spread of illness that leads to absenteeism. The path to smarter hand hygiene starts here.

WALL MOUNT DISPENSERS

In educational facilities, soap and sanitizer dispensers must be dependable and durable, as well as:

- Accessible and easy to use
- Secure to deter vandalism
- Disperse an accurate amount of product

MANUAL DISPENSERS

- Top dispensing allows easy viewing
- Upper valve placement means no leaks
- Dispenses .75 mL of product, *also available in .4 mL output for 2,600 uses per bag!*
- Locking option (included)
- Made from durable plastic with no metal parts

TOUCHFREE DISPENSERS

- Powerful motor for quick dispensing
- Motion sensor prevents random dispensing
- Sleep mode after 30 minutes of non-use extends battery life
- Includes four C batteries for more than 30,000 dispenses

Large area for color logo

Spread school spirit, not germs!

Your logo or mascot is printed in full color directly on the front of the dispenser. It looks great, won't scratch off and boosts school pride!

HAND SOAPS AND SANITIZERS

FoamCLEAN™
QUALITY SKIN CARE

There are a variety of soap and sanitizer needs that exist in educational facilities.

Make sure to consider:

- Dye and fragrance free hand soaps are ideal for allergy-sensitive settings.
- Instant alcohol hand sanitizers kill up to 99.99% of most common germs, furthering good hygiene between hand washings.
- Alcohol free hand sanitizer is non-flammable and gentle on hands.
- Green Seal® certified soaps are safe for the environment, and users.
