Dear Tom:

I am pleased to inform you that Green Seal has evaluated the following Kutol Products Company products and determined that these products comply with the environmental and performance requirements of the Green Seal Environmental Standard for Hand Cleaners and Hand Soaps Used for Industrial and Institutional Purposes (GS-41):

Product Name	Product Code	Size

	69003	55 gal HDPE drum
Clean Shape Foaming Hand Soap	69045, 69078, 69078-4	950 mL HDPE bottle

Accordingly, Kutol Products Company is authorized to use the Green Seal Mark in association with these products, provided that no changes are made in the way the products are manufactured or represented.

This certification remains valid until such time your product is no longer subject to a valid certification agreement, or that Green Seal has reason to believe, based on the results of our ongoing monitoring program or otherwise, that your product no longer complies with GS-41.

As a reminder, any use of the Green Seal Mark or reference to Green Seal needs to be approved by Green Seal and conform to the Rules Governing the Use of the Green Seal Certification Mark.

Congratulations on this achievement for Kutol Products Company. We look forward to continuing this relationship.

Sincerely,

Mark T. Petruzzi
Vice President of Certification
