

KUTOL

Hand Hygiene Specialists

July 21, 2011

To Whom It May Concern:

Foaming Antibacterial Hand Soap, manufactured by Kutol Products Company, complies with the Federal Food, Drug and Cosmetic Act. The product is regulated by the FDA as both a cosmetic and a human drug (OTC topical antiseptic hand wash) and as such complies with all relevant regulations. Kutol Products Company is registered with the FDA as a drug manufacturing facility and all products are produced according to GMP (Good Manufacturing Practice) as specified in CFR 21 Parts 210 and 211.

The intended application of this product is to cleanse and reduce bacteria on the skin. It is considered safe and effective if used according to product directions.

FDA regulations require the warning "Keep out of reach of children." on all drug products.

If you have any questions or need further information, please let us know.

Sincerely,

Dave Wood
Technical Director
