

FoamClean™

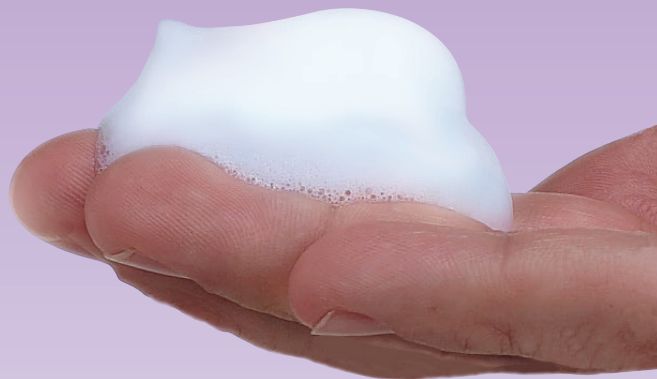

QUALITY SKIN CARE

COUNTER MOUNT

FOAM DISPENSING SYSTEM

Patented Design
that Refills from
ABOVE the
Counter!

“Top-off” anytime!

No messy pumps! No crawling on the floor!

FoamClean Counter Mount refills from above the counter, using the self contained sealed refill bags. To refill, simply remove the foaming pump head from its locked position, insert the bag nozzle into the refill dock, turn to open the nozzle and the soap will flow quickly from the refill bag to the sealed reservoir below the counter. “Top-off” the soap whenever you like, no need to wait until the reservoir is empty.

- **Moisture Wash Formulas** Extra creamy, with dual moisturizers for skin conditioning and moisture retention.
- **Green Seal™ Certified Formula Available** 
- **Multi-Lingual Labeling with Easy-to-Follow Instructions**
Each bag of soap is individually labeled in English, French and Spanish, and the filling instructions are clearly illustrated.

FoamClean Counter Mount Foam Dispensing System Features:

Fits New and Existing Installations

Designed to be the ideal replacement for existing counter mount systems or the perfect choice for new installations. Requires a 1" diameter hole through the counter.

Sealed Soap Reservoir

Unique patented design seals the refillable bag inside a durable plastic housing. When the reservoir is full, it will provide approximately 1,300 hand washings. Refill from above the counter as needed, never run out of soap.

Economical to Use

Uses just .75mL of liquid to produce enough foam to complete a hand washing, versus traditional liquid that typically requires 1.5mL or more.

ADA Push Compliant

Can be operated with one hand, requiring less than 5 lbs. of pressure to dispense product.

Durable Design

Made from durable ABS plastic and features real stainless steel accents.

Refilling is easy - save time,
product, and money

Step 1: Remove the pump head -
(no crawling on the floor!)

Step 2: Insert bag into the refill dock. The soap
will flow by itself into the reservoir below.

Soap will stop flowing automatically,
and bag will lock with the remaining
product inside, ready for the next use.

Step 3: Replace the pump.
It's ready for use!

ENSURE Antibacterial Moisture Wash

- Enriched with Emollients and Humectants
- Bactericidal agent: Benzalkonium Chloride, 0.13%
- Rich pink color
- Refreshing grapefruit fragrance
- Efficacy data available
- 1000 mL - **#44169** 4 per case
