## SOFT & SILKY

### Traditional Bag-In-Box with Boxless Bags

Convenient and widely used, the Soft & Silky line features contamination-free sealed pouches with integrated dispensing tubes in a broad range of Health Guard® products and sizes. We eliminated the outer carton to be more "green" conscious. These boxless bags are just as easy to insert into the dispenser as the cartons.

**800 mL** - The most common bag-in-box size and designed to fit most competitive dispensers.

**1000 mL** - The 1000 mL bag fits in our 800 mL dispensers. With this larger size, you get more soap with less packaging!

**1200 mL** - Lasts longer, requires fewer change outs and reduces labor. Utilizes the shorter, large diameter dispensing tube.
